## DATEX - Fibreglass Covers for Car Body Repairs

protect safely - save cost - boost your image

### The Advantages:

Damages caused by flying sparks and metal drops during car body repair jobs are very expensive.

### Save your customers this trouble.

Our covers have been tested through practical use and guarantee fast and secure protection.

Even in the case of complex repairs combinations of covers provide flexible and fast protection.

Most preventive dismantling of the interior becomes obsolete.

### A profitable investment in

- workshop quality
- company image

### Product quality:

- The interior protection (D-A 20) prevents sparks and metal drops from entering the interior.
- The special rear cover (D-A 25-02) safely protects the interior of tailgate vehicles in a matter of seconds.
- The door protection (D-A 23) covers large opened vehicle doors.
- Suction cups replace magnets which may damage and scratch the paint.
- We use robust coated fibre glass fabric of high quality which resists temperatures up to 700 °C.

**Suction cups**  
for non-scratch attachment.  
Easy to remove and interchangeable.

**Interior Protection**  
(with suction cups) size: 2,40 x 1,50 m
