Protection Covers for Mercedes-Benz Workshops

protect safely - save cost - boost your image

Optimum quality was achieved in many years of co-operation with workshops and carmakers!

Each one of our covers is tailored to offer optimum protection for your customers' cars.

Only Datex develops, tests, produces, updates and improves each individual protective cover's fit, fixation, padding and optics – not only for each car brand, but, whenever necessary, even for single car models.

Our covers thus comply with the quality and CI standards of most leading manufacturers and importers.

Over the years, we have developed an efficient range of protective covers: as many as necessary and as few as possible; exactly as required by the authorised workshop.

This is the only way to guarantee optimum protection in the face of an ever increasing multitude of car models.

The use of our products assures the workshop quality and saves avoidable damages and cost.

Each protective cover has a skid-proof, scratch-free and quick fastening system, without magnets. It guarantees a secure fit on the car and avoids costly scratches which can be caused by magnets which nearly always have permanently adhering steel particles.

A two centimetres thick padding reliably avoids dents and scratches even on delicate steel plate and plastic parts, which could easily be caused through negligence or errors in handling heavy parts or tools.

The very vulnerable upper edges of the fenders are perfectly protected by an edge protection flap and the strong fastening system.

Nearly 45 years of Datex mean extensive know how in the co-operative development and first-class production of covers for the workshop's requirements.

Quality materials and careful craftsmanship guarantee the long service life of our protective covers.

Made in Datteln, Germany.

Latest update: February 2018

(Daimler O/N W 000 588 08 98 00)

Special protection for the entry plate, particularly for the installation and the removal of the front seats.

Attachment through belt straps and a fibreglass rod.

Made of black foam-coated artificial leather. With extra strong padding and silkscreen printing of the MB star to support the workshop's image.

Size: about 147 cm x 53 cm

Weight: about 1.5 kg

Packaging: 1 piece

Special front and fender cover

(Daimler O/N W 000 588 07 98 00)

For Mercedes-Benz A Class 176, B Classes 246/245, CLA, GLA and the Citan.

Non-scratch attachment without magnets, by web belts with Velcro and suction cups. Made of black foam-coated artificial leather. With imprint of the logo to support the workshop's image.

Size: about 330 cm x 74 cm

Weight: about 1.6 kg

Packaging: 1 piece

Special front and fender cover

(Daimler O/N W 000 588 01 98 00)

Tailored for Sprinter, Vito, Viano and V Class.

Non-scratch attachment without magnets.

Made of black foam-coated artificial leather.

With imprint of the logo to support the workshop's image.

Size: about 295 cm x 75 cm

Weight: about 1.5 kg

Packaging: 1 piece

Special front and fender cover

(Daimler O/N W 000 588 02 98 00)

Tailored for A Class 168/169 and Vaneo.

Non-scratch attachment without magnets. Made of black foam-coated artificial leather. With imprint of the logo to support the workshop's image.

Size: about 283 cm x 67 cm

Weight: about 1.4 kg

Packaging: 1 piece

Special fender covers for AMG GT/SLS

(Daimler O/N W 000 588 05 98 00)

Tailored for the AMG GT and SLS.
 Non-scratch attachment without magnets. Extra strong padding.
 Made of strong foam-coated artificial leather, black colour.
 With imprint of the logo to support the workshop's image.

Size: about 182 cm x 93 cm

Weight: about 2.5 kg

Packaging: 1 pair

Cover for the radiator bridge AMG GT

(Daimler O/N W 000 588 13 98 00)

Special protection for the magnesium radiator bridge of the AMG GT in the upper front part of the motor compartment.
 Attachment through Velcro belts.

Made of three-layered black sandwich material.
 With "AMG GT" imprint to support the workshop's image.

Size: about 157 cm x 66 cm

Weight: about 0.8 kg

Packaging: 1 piece

Special fender covers for G model

(Daimler ON W 000 588 00 98 00)

Tailored for all G Class models.
 Non-scratch attachment without magnets.
 Made of black foam-coated artificial leather.
 With imprint of the logo to support the workshop's image.

Size: about 130 cm x 89 cm

Weight: about 1.5 kg

Packaging: 1 pair

Rear Cover, especially for fuelling with AdBlue

(Daimler O/N W 000 588 06 98 00)

Protects bumper and carpet through a strong extra padding.
 Developed especially for vehicles using AdBlue. Attachment through Velcro belts. Made of black foam-coated artificial leather.
 With logo imprint to support the workshop's image.

Size: about 110 cm x 72 cm

Weight: about 0.6 kg

Packaging: 1 piece

Seat cover "antistatic"

(Daimler ON W 000 589 50 98 00)

Protection of electronic devices against electrostatic discharge, for all single seats, made of extra strong polyethylene with antistatic material fractions, yellow identification colour.

Size: about 840 x 1400 mm

Weight: about 9.0 kg

Packaging: 250 units on a compact roll
